COATING & PAINT CURING OVENS

PU Coating Curing Oven

Oven for curing polyurethane paints and coatings with gentle, uniform heat.

TEMPERATURE
Up to 150°C

HEATING
Electric, gas (LPG/PNG/CNG) or dual fuel (electric + gas)

INDUSTRIES
Wood, metal, automotive

Specifications

Working temperature	40°C to 150°C
Typical force dry	30 to 45 minutes at 60°C to 80°C
Air quality	filtered, low velocity
Suitable substrates	metal, wood and plastics
Heating	electric, steam, hot water or indirect gas

Features

- Low, even air speed over wet surfaces
- Fine filtration on all supply air
- Slight positive pressure to keep dust out
- Accurate control at low temperatures
- Exhaust for solvent with fresh air make-up

Applications

- Furniture and wood finishing
- Plastic components and housings
- Machine tools and assembled equipment
- Commercial vehicle and bus bodies
- High-gloss industrial finishes
